Seul sera détaillé ici les résultats concernant l'indice Gorochov. Les autres indices ne donnent dans cette étude aucun résultat pertinent (nature plurimodale des profils de certaines unités expérimentales).

Le type d'infection influe en moyenne sur l'indice Gorochov observé pour les différents

Vb étudiés.

- L'organe influe en moyenne sur l'indice Gorochov observée pour les différents Vb étudiés.
- ❖ L'indice Gorochov observé, en moyenne, sur les différents groupes n'est pas la même selon l'organe considéré.
